certification mechanism. The duration of the project is three years. During the project period an attempt will be made to identify and assess the demand for organic tea in the export markets and develop marketing strategy including a relevant promotion package for this market. The total estimated cost of the project is US$1.425m of which the CFC is expected to provide US$0.329m by way of loan and US$0.971m as grant in aid. The balance would be contributed by the Tea Board and tea industry. Besides, a National programme for organic production and preparation of necessary guidelines thereon has also been finalised.
